

## HEAVY DUTY UNICHEM ABSORBENT PADS

The SpilMax<sup>®</sup> range of absorbents have undergone extensive testing to ensure their absorbency and performance, even when under extreme industrial use.

SpilMax<sup>®</sup> Heavy Duty 400gsm UniChem Absorbent Pads are the most versatile absorbent option. They are ideal in any general purpose or chemical spill kit. UniChem pads will absorb water, oils, fuels, diesel, coolant, general workplace chemicals and common agricultural chemicals as well as hazardous chemical spills of strong oxidisers, acids, alkalis and caustics.

Single pads can be used to capture small leaks, clean up small spills and wipe down tools, equipment or drum tops. Rolls are perforated pads that will tear off in custom sized sheets. These are ideal for use under vehicles and equipment during maintenance or refueling

and to create set down areas for containers or leaking equipment.

Made of melt blown polypropylene with dimples and scrim for greater durability. Each pad absorbs 1L per saturation. Pads can be wrung out and reused many times during spill clean up.

**TESTING:** ASTM Test Method F726-06 “Sorbent Performance of Absorbents” to test maximum oil capacity.

CODE	SIZE	PAD QTY	DIMENSIONS	WEIGHT
CH1322	480mmL x 430mmW	100/Box	0.50mL x 0.45mW x 0.44mH	10 kg
CH1310	43mL x 960mmW	200/Roll	0.48mL x 0.48mW x 0.96mH	15 kg
CH13103	43mL x 480mmW	100/Roll	0.48mL x 0.48mW x 0.48mH	8 kg
